If Governor Bradley would send troops to the mountains and quell some of the "special" correspondents, he will do a good turn toward protecting the good name of the state. These rosters get paid so much a column, and the bigger the lie, the bigger the price. Almost every report has, when sifted down, been proven greatly exaggerated, or wholly without foundation. When two men fall out and fight, it is given out that the entire population has taken sides on the matter. The "special" writer does vastly more harm than good and nine out of every ten should be squelched.

ONE of the cleanest and most gentlemanly orators on the political stump in Kentucky is the Hon. Geo. G. Gilbert, of Shelby county. He sings no mud and indulges in no personalities whatever. By plainly setting forth the claims of his party, he has won the respect of both parties, and many republicans flock to hear him at every opportunity.

AN exchange says that not long since a minister at Minerva, Mason county, was bubbling over with enthusiasm, said at the beginning of a service: "Give us all clean hearts; give us all sweet hearts," to which every old maid present shouted a vociferous "amen."

FIVE hundred dollars is the sum paid for the use of a window in New York by parties to see the Dewey parade. Dewey is certainly a great man, but if we had five hundred dollars we would feel as big as Dewey and expect him to hire a window and look at us.

Down near Owensboro a man attempted to commit suicide because he had done a number of mean things. If everyone who has been guilty of mean tricks were to follow the Owensboro man's example this old world would not have enough men left to play a game of seven up.

THE Dewey celebration at New York will be the grandest ever given in this country, and it now looks like the thing will be greatly overdone.

**A WONDERFUL CURE OF DIARRHOEA.**  
A prominent Virginia Editor had almost given up, but was brought back to perfect health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

**READ HIS EDITORIAL.**  
From the Times, Hillsdale, Va.  
I suffered with Diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O. A Wagon maker who has been dumb for years picked up a hub and spoke. ## Kentucky Crop Conditions.

The government crop bulletin for Kentucky, issued under date of September 14th, says:

"Generally speaking, the week was warm and dry. Some localities were favored with showers on the 31st, but the State as a whole is experiencing a decided drouth. This is most severe in the eastern and central portions, where water for stock is becoming scarce in some places; in the western portion more favorable conditions prevail.

Corn is doing fairly well and is maturing rapidly. Early fields are being cut in some places and with warm, dry weather the late corn will soon be free from frost. It is maturing and ripening too early for the best results.

Tobacco has ripened somewhat prematurely and is now being cut and housed. There is complaint from some localities that the lower leaves are "ripping" badly, and some is being cut on this account.

Irish potatoes are generally reported to be a light crop. Apples are still dropping badly and promise only a very light crop of inferior quality. Except in the western portion, pastures are in very poor condition, being badly burned out by the hot, dry weather.

There is a very general complaint of damage by army worms. Pastures and meadows have been injured by them and corn leaves badly eaten in some sections.

Planting for winter wheat has been stopped in most localities by the dry weather. Rain is badly needed in nearly all portions of the State.

## No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 cents at R. E. McRoberts' Drug Store. 1m

But for him Scott would be ten or fifteen thousand dollars better off.—Advocate
